### Description

Today's sophisticated vehicles require specialists to maintain and repair their complex systems. As a student in the Alignment and Brake Technician apprenticeship, you will gain in-depth knowledge of wheel and steering systems and their relation to vehicle control and stability. The program also covers service and repair for all types of braking systems. Special registration instructions apply. Please read the Admission Requirements for more information.

### Benefits

#### Career Outlook

You will be qualified for jobs with:

- Vehicle and parts manufacturers
- Dealers
- Garage retailers
- Governments
- Corporations with their own fleets
- Self-employment

#### Program Highlights

- There is an earn-while-you-learn training approach
- Professors have extensive and current experience in the industry
- Facilities are state-of-the-art and housed at the province's largest transportation training centre, Ashtonbee Campus

### Admission Requirements

**To be eligible for this program you must be currently employed as an apprentice.**

You cannot apply directly to the College or ontariocolleges.ca for admission to this apprenticeship program. For general information about apprenticeship registration, please contact the Ministry of Training, Colleges and Universities:

#### Telephone

- Adjustments Branch: 416-326-5800
- Metro East: 905-837-7722
- Metro West: 905-279-7333

#### Online
